

## **BDCP public open house meetings begin statewide**

The Bay Delta Conservation Plan (BDCP) will conduct twelve public open house meetings statewide during January and February so the public can learn more about the Draft BDCP, the Draft EIR/EIS, and how to submit comments. Meeting times and locations are [here](#).

## **DSC meeting features a report on drought and the Delta**

The Delta Stewardship Council (DSC) will meet January 23 in Sacramento. [Agenda](#) items include a discussion of the draft issue paper, "Restoring Habitat with Science and Society in Mind," and a report on drought and the Delta.

## **DPC meeting will report on Delta branding, BDCP**

The Delta Protection Commission (DPC) will meet January 23 in West Sacramento. [Agenda](#) items include a report on the Delta Heritage Area Initiative: Branding and Marketing and an update on the Bay Delta Conservation Plan (BDCP).

## **Conservancy board meeting features various presentations**

The Delta Conservancy Board of Directors and Liaison Advisors will meet January 22 in West Sacramento. [Agenda](#) items include a presentation titled, "The Collaborative Science and Adaptive Management Program," an update on Los Vaqueros Reservoir Expansion Project, and a presentation titled, "The Central Valley Habitat Exchange."

## **Workshops offered on Delta habitat and property protection**

The Delta Conservancy and the Water Education Foundation will conduct two free half-day workshops, titled "Finding Ways to Restore Delta Habitat and Protect Property Owners," January 28 in Courtland and January 29 in Stockton. The workshops will describe how private property owners can become involved in present and future conservation efforts to enhance the Delta's habitat and also get assurances that if protected species appear on their properties, they will not face penalties under State and federal laws. More information is [here](#).

## **Save the date - aquatic biology synthesis seminar**

The Delta Science Program and the University of California, Davis, Center for Aquatic Biology and Aquaculture will conduct a seminar February 18 in Davis, titled "Lower Food Web Dynamics in California's Bay-Delta Ecosystem: Current Understanding and Future Interactions with a Changing Landscape." More information is [here](#).
